Ms. Tames,

Attached please find the responses on behalf of the City of Syracuse to the EPA's Request for Information relative to the Lower Ley Creek sub site. Thank you and also Mr. Doyle for the extensions of time to respond. As we discussed, the search for this information has been complicated by the fact that most, if not all the individuals that may have been involved in decisions related to the City's waste disposal from the 1960's and early 1970's are likely deceased or at a minimum are no longer employed by the City. In addition, as you can imagine records dating back to that time have proven difficult to find. As a result, we will continue our investigation and update you in the event we discover any additional relevant information.

Thank you,

Robert P. Stamey
